

District Policy Review Assignments

My apologies for not getting this to you in a timely matter. If you are not able to review your section and report your findings at the December 16th meeting, we will have this as an item on the January 13th meeting and we can conclude the review at that time.

Some sections will have two committee members assigned due to their size. You can split the sections up between yourselves or both read the entire section and each can report on their review. Members may also have multiple sections as I tried to level out the number of pages everyone had to review.
